Gandhi Manav Kalyan Society

Vision: Gandhi Manav Kalyan Society strives for a self reliant, just society in which people develop their capabilities of managing their own resources to contribute in a sustained self development process.

Mission: The fundamental objective of the working of GMKS is to build such a society where people are able to solve their problems freely and effectively in a spirit of equal citizenship.

Strategy: GMKS adopts the role of a “catalyst”. Its strategy is to assist people for their own development process and become capable enough to manage their life and environment independently. The task is not easy as stated. But, it is the challenge GMKS has taken up to address with firm dedication, discipline and determination.

Earth provides enough to satisfy everyman's need, but not everyman's greed.

Words from CEO

Thirty-Seven years passed when Gandhi Manav Kalyan Society was established with a vision to educate, help & uplift village communities. We were having firm determination and a driving force that whatever we do must had impact and sustainability. We often heard from other NGOs in the field that sustainability is a “mirage” that every respectable development organization pursues but seldom achieves. In spite of this, we were determined to follow those guiding criteria in our work.

As we reflect on the last one year, we are humbled by the truth that in spite of what we have done in the development sector, there is still so much more to do in the area of rural development and particularly enhancing the rural economy through sustainable livelihood and better governance. Our mission has been tremendous achievement indeed. GMKS carried out its activities hand in hand with the poorest down trodden and most vulnerable sections of people, through a number of community development and action oriented interventions at grass root levels for gender equalizations, better governance, education, comprehensive health including Covid-19 relief, ecological and social empowerment. And in this pursuit, GMKS has played a role during this year in helping and developing needy people through various facilities that they deserve to live themselves with dignity.

We are inspired by community people who share our vision of development for their communities had willing to put their effort behind it and they have done successfully, even in the toughest times of pandemic Covid-19. Whilst it has been a difficult journey for GMKS this past year. However, we realize that in every challenge we encountered, was an opportunity to reach out for support, and we received help in abundance our large-hearted donors and our dedicated friends, and our volunteers and of course our loving dedicated GMKS family members. It proved our philosophy that nature always responds in abundance to pure intentions of need!! This is what miracles are about. A turning point has been realized in GMKS activities. This transformation reflects the steady growth of this organization. At last, your constant and continued encouragement and unstinted support is encouraging and motivating us, to carry out our activities to the targeted communities at maximum level though we know still long way to go as long as people are living in poverty without food security, water security, or social justice, we can never be completely satisfied that our work is done. Thank you...

Gandhi Manav Kalyan Society a true Voluntary Organization

Gandhi Manav Kalyan Society (GMKS) is a non-profit, non-government, voluntary organization working with Gandhian ideology in 355 predominantly tribal villages of Jhadol, Falasia and Gogunda blocks of Udaipur district and Sagawara block of Dungarpur District in South Rajasthan. GMKS has been working for the past three and half decades to empower and strengthen the small and marginalized communities in this region. Established in 1986 with the initiation Shri Madan Nagda, GMKS has grown into a force of 25 full-time staff members and 165 local field-level volunteers, all dedicated to the holistic and sustainable development of the Aravali hill region with the focus on five “J” Jal(Water),Jangal(Forests),Jameen(Land),Jan(Human) and janwar(Animal).

GMKS remains committed to the vision and mission that it was founded upon: To achieve self-reliant and empowered tribal communities that have the ability to manage their own resources and are engaged in their own development process. In all activities, programs and projects, GMKS emphasizes complete community participation and involvement in the belief that ideas generated from the tribal communities are ultimately the most effective instrument in the development scenario.

The people in the region are predominately Scheduled Tribals (ST), with a few pockets of individuals that fall into the Other Backward Caste category (OBC). The villages are traditional, remote, and physically isolated from

mainstream society. As they have evolved in relative isolation, the main activity and means of livelihood of these tribal individuals remain the subsistence agriculture and animal husbandry that was practiced by their ancestors and labor. The villagers continue to rely on natural resources, especially the monsoon rains, for their survival and livelihood. Most of the people migrate in search of livelihood to Gujrat, Maharashtra and nearby town is common.

Though the mission and vision of GMKS has remained constant through the years, its focus areas continue to adapt with the needs of the community members and the changing environment. During the 1980's, the focus was mainly on building and strengthening village groups, awareness building, channeling government resources, and organizing people for effective social action. In the 1990's, catastrophes such as reoccurring drought, deforestation, and exploitation motivated GMKS to begin implementing physical activities aimed at improving the environment and the socio-economic status of the tribal communities. In addition, they directed their awareness-raising activities towards helping their communities understand and assert their rights and privileges. GMKS has preserved its role as a catalyst, helping people to take charge of their own development process and to become capable of independently managing their lives and environment. During 2004-16 work for child development and later on 2014-18 worked for child protection and child rights. GMKS also engaged in stopping child migration and mainstreaming the children since its inception.

GMKS works through a dedicated and determined team of staff and village-level volunteers. In keeping with the vision of self-reliance and empowerment, most of the staff members and volunteers are drawn from the local tribal communities. GMKS believes that the community members are in the best position to decide how to improve their situation. In addition, GMKS realizes the importance of working through local individuals in implementing development programs, as they can speak from their own experiences and situation. For the past thirty-four years, GMKS has enjoyed tremendous success in empowering local community

It's our unshakeable belief that we will never achieve its true growth story until the rural sector of the country is empowered to make choices and

transform their own lives. With this thought, we initiate GMKS in 1986. With a mission to empower rural lives through a unique 360-degree development model which covers Five -J, The key thematic areas namely Water(Jal), Forests (Jangal), Land(Jameen), Animal(Janwar) and the people(Jan). Our developmental, educational and restoration programs are around these five J. Our aim is to ensure Holistic development of the community.

Water

Water is precious and must for survival of nature and human being hence we incorporate knowledge and technologies, GMKS team partner with communities to create water augmentation systems that include check dams, rainwater harvesting structures, storage tanks, ponds, soak wells & soak pits that provide access to safe drinking water.

Water is the backbone of agriculture hence GMKS provide special attention towards water resource management through education and motivation of the community by creating assets like lift irrigations, gravity irrigation, channel lining and crop planning seeing the water availability.

SN	Activities	Numbers	
1	Villages covered	320	
2	WASH in schools	100	
3	Recharge wells	76	
4	Soak pits	911	
5	Community Lift Irrigation	2	
6	Check Dams	42	
7	Watersheds	35	
8	Toilet construction in Schools	200	

Livelihoods

The agriculture sector employs nearly half of India's workforce but contributes only 15.8 percent of the GDP. To address the needs of tribal farming communities, GMKS Crop demonstration, fruit plantation and Vegetable cultivation playing vital role with management practices and

promote farm mechanization, water conservation in agriculture, Millet promotion, livestock health and development, and the use of doorstep extension services and other interventions increase farmers' income which provides them graceful livelihoods.

Since 2013 GMKS is working with 981 tribal families of Sagwara block of Dungarpur district. After initial preparation, motivation, plantation and development of Orchard work in 2013-14 now farm families are getting tremendous benefits. Their life style changed with ensured regular earnings from orchards. They also start vegetable cultivation since 2014 and adopt modern agriculture which also boosts their income. Their children's are attending schools and migration in search of labor stopped. Most of them repaired or construct good house. Greenery around their fields can be visualized. Orchard boundary plantation including tik, awla, neem, Julliflora, Jangal Jalebi, Euchiliptus and Su babul provides them animal fodder, fuel wood and extra income. Now most families are self reliant from this program and selling surplus grain they produce with vegetables and fruits.

SN	Activities	Numbers
1	Villages covered	25
2	Demonstrations	986
3	Orchards	911
4	Mango Plants	13665
5	Guava Plants	15000
6	Lemon Plants	15000
7	Vegetable cultivators	986
8	Poultry	25
9	Goat farming	50

Under the livelihood development GMKS has done following works:

A. Livelihood Development

- a. Ensured livelihood
- b. Farmers Producer Organization:
- c. Natural Resources Management

Ensured livelihood: Farmers Experience

Thawri Bai w/o Shanker Lal from Gada Lal Singh

In 2014-15 I have planted 20 lemons and 20 Mango plants letter on during re-plantation I have planted 15 lemon and 5 Mango plants. Presently I am having 32 leman and 22 Mango plants. During the time I have planted 100 plants around orchard consisting Arjun, Neem, Amla, Shisham tic. Now the all plants provide me earnings. With Orchard I am growing vegetables which also provide us earnings. My seasonal crop income is also three times more because of traings and guidance provided by GMKS.

Thanks to Gandhi Manav Kalyan Society for taking my family under livelihood development. GMKS bring me to Delhi PUSA and provide me and my husband agricultural and horticulture training. After fulfilling our daily food need, we sold-out surplus grain. From Orchard around Rs.40000/- and from Vegetable we earn 30000/- in one season whereas from seasonal crop we earn 40,000 in a season.

Our livelihood is ensured with agriculture and horticulture development. Now we don't need to go out for labor work to earn livelihood. My two kids are studying in school.

Prakash S/o Harish From Balrampur

I am happy that GMKS provide us trainings and motivated my family for orchard development and vegetable cultivation. In the year 2014-15 my family was selected for livelihood development program. GMKS provides us necessary trainings and bring my father for educational tour to widen his thoughts and provides hi-yielding variety of seeds, Mango, Lemon and Guava plants for orchard and 100 plants for border plantation which includes fuel, fodder and herbs.

At present I am having 40 Mango plants, 30 Lemon trees and 35 Guava plants. Last year I earned Rs.25000/- from Mango, Rs.30000/- from Lemon and Rs.5000/- from Guava. Apart from orchard I earned 2.5 lakhs from Vegetable selling. I produce 18 quintals of Maize in kharief where as in Rabi I produce 10 quintal Wheat and 5 quintal Gram.

Before 2015 my family's livelihood was depending on agriculture and labor where as to day, I am vegetable merchant.

Kalu Bhai S/o Laxman Ji, Godafala

Because of GMKS our life changed. Before 2014-15 we were mostly dependent on labor for our survival where astoday I am the seller. In 2014-15 we planted 15 Mango & 15 Lemon plants with 100 border plants around my orchard are now giving us good income and with that I have started using improved seeds in seasonal crops and vegetable cultivation which changed our life.

Thank you to GMKS for livelihood program and trainings with inputs given to me in regular intervals. Presently I earned around 40000/-Rs.

From vegetable cultivation, Rs.30000/- from Orchard and produce 15 quintal Wheat in Rabi and 5 quintal maize with 2 quintal gram in Kharib.

I use & prepare cow dunk

Kamal Ji Prajapat of Gada Jhum Ji

Eight years ago, I have planted 15 Mango and 25 lemon plants in .5 acre of land with the support, mentoring, guidance and inputs from Gandhi Manav Kalyan Society.

In-between the plants I grow vegetables, regular care and timely irrigation to plants and vegetables which gives me regular earnings. Seasonal Vegetables gives me 20 thousand per season. I have planted hundred trees all along the boundary. at presently, after seven-year 12 Mango and 25 lemon plants are surviving and provide me hand some income which I never assumed. Mango trees provide me Rs. 25000/- Per annum whereas Lemon provides me Rs. 35000/- per annum. On the boundary wall Bamboo, Amla, Dadam, Jamun, Neem and 130 trees of Burma tic are surviving. Apart from Orchard with the motivation and trainings I improved my cultivation practices which resulted three times production.

Livelihood of my family ensured because of GMKS livelihood development program. Seeing my Orchard in my village 3 more people develop orchard and getting benefits.

Farmers Producer Organization:

GMKS established Three Farmers Producer Organizations in its working. The thrust of FPO was to help farmers in marketing and availability of seasonal seeds at their door step. These three FPO's were established in 2016 with the support of NABARD.

- 1. Bhomat Agro Food Producer Company**
- 2. Wakal Agro Food Producer Company**
- 3. Kanthal Agro Food Producer Company**

All three FPO, is working smoothly and having they're on board.

Governance

Village-level committees are trained and strengthened for better governance and establishing better linkages with government department to avail benefits from FRA and MGNREG Acts and SSS schemes who is entitled. The trainings enhance individual and community responsiveness, accountability, cohesiveness and transparency, resulting in good governance and empowerment.

GMKS through Bhomat Vikas Manch facilitates training for rural youth and promotes its use in learning about and accessing government program information and services that benefit the entire family and village. To strengthen grassroots democracy villagers are motivated to participate in Gram Sabha.

An umbrella organization called Bhomat Vikas Manch (BVM) a block level support organization encourage people to make cohesion among the village and help them to avail social security schemes and the benefits of the acts like MGNREGA & FRA. The BVM is having its own AGM. Administratively the area is divided into five zones namely Ogha, Birothi and Oda in Jhadol block where Vas and Samija in Gogunda block of Udaipur district. Its only three years old organization which is working in 120 villages with 6000 families in 29 panchayats and now they are planning to expand its area of working with 12000 families.

The GMKS's Monitoring & Research team provides an essential support function in program areas that assists in improving strategies by evaluating and quantifying the impact created by each activity. Findings are provided to donors and communities. Sharing impact information with communities from the beginning helps to ensure greater sustainability of initiatives after implementation teams complete the program. The achievements after completion of first phase are as below: -

Objective1:

Consolidating,strengthening & increase the reach of BVM as institution.

- ❖ No. of Panchayats -29
- ❖ No. of Villages -120
- ❖ No. of Members – 6000
- ❖ No. of Panchayat Level Members –
- ❖ No. of Block level Members –
- ❖ No. of Block level Members -

Monitory Benefits Annually (Rs in Lakhs) –

- No. of Panchayats -
- No. of Villages -
- No. of Members –
- No. of Panchayat Level Members –
- No. of Block level Members –
- No. of Block level Members –

Objective 2:

**Ensure benefits of allied Social Security Schemes meant for them.
(Pension & Scholarships)**

- ❖ Old age Pension - 1232
- ❖ Widow Pension – 196
- ❖ Disability Pension – 61
- ❖ Palanhar Pension – 89
- ❖ Scholarships – 419

Monitory Benefits Annually (Rs in Lakhs) –

- Old age Pension – 117.9
- Widow Pension – 12.97
- Disability Pension – 4.2
- Palanhar Pension – 5.7
- Scholarships – 33.52

Objective 3:

Build and promote local leadership at different levels. Groom & prepare aspiring leaders for future leadership roles. Support the elected PRI representatives for improved governance and enhance days under MGNREGA in these 160 villages.

- ❖ PRI Training – 1
- ❖ No of PRI Members attended Training – 103
- ❖ No of families got 100 days' work under MGNREGA – 943
- ❖ No of families got 75 days' work under MGNREGA – 3701

Monitory Benefits Annually (Rs in Lakhs) –

- PRI Training –
- No of PRI Members attended Training –
- No of families got 100 days' work under MGNREGA –
- No of families got 75 days' work under MGNREGA –

Objective 4:

Initiate the process of Forest Rights claim generation at the community level and advocacy for its approval at Sub Divisional Level

- Work shop organized -
- No of Participants - 800
- No. identified cases - 461
- No of Application - 800
- No. of Patta allotted -109

Monitory Benefits Annually (Rs in Lakhs) –

- ❖ Work shop organized -
- ❖ No of Participants -
- ❖ No. identified cases -
- ❖ No of Application -
- ❖ No. of Patta allotted –

Emergency Relief

- Covid-19 - 3395 families
- Silicosis Patients – 18

Monitory Benefits Annually (Rs in Lakhs) –

- ❖ Covid-19 –
- ❖ Silicosis Patients –

Some Reactions of the Members:-

I got 100 days' work under MGNREGA

I am Lalita Devi from Dadmiya of Pilakh Panchayat. My age is 35 years and my native place is 50 km away from my in lows village. I got marriage when I was only 16 years old. I lost my mother and father in my childhood when I was 9 years old. My uncle nursed me and he has done my marriage with Chunni lal of Dadmiya. My husband's financial position was so weak hence we left our village and went to Amet which is 100 km away from my village Amet which is

100 km away from my village. We stayed there for 5 years and did labor work. After 5 years we back to our village and build mud house to reside, I have 2 sons and 2 daughters, we all 6 live in the same house. We had small piece of agricultural land which was uneven, so we did land leveling first and start cultivation but after all efforts it was too difficult to maintain family so with cultivation, we start doing animal husbandry and labor work. We were having great problems because we were not having proper documents which were necessary to get benefits from government schemes like residential certificate, Ration card, Job card, Aadhar, Jan Adhar, Bhamashah card etc. We tried hard to get necessary documents. We met sarpanch and secretary several times but didn't succeed. We felt that it's our destiny we have to live without documents. During the time in 2019, Bhomat Vikas Manch started in our village and called village meeting which we both (me and my husband) attended. Here in the meeting they share about village unity and four major objectives of the BVM. We became the member of the BVM. I regularly attending monthly meeting. During membership survey I share my problem

regarding my documents. My case was discussed in meeting and later on the village committee and the BVM staff comes forward to guide me and I got all necessary documents.

It is happy to share that in the year 2021-22 I got 100 days' work under MGNREGA. This year with the help and good advices from village committee and BVM staff, my family situation is got better and I need not to owe money from money lenders for domestic works. Now my family's life style is changed in positive and progressive direction.

My Understanding increased after being member of Bhomat Vikas Manch

I am Kailash Chandra Kher from Bshesana Village of Jhadol Block. My village which is Panchayat headquarter is on 55 km distance of Block headquarter Jhadol and my residence is about 2 km away from village panchayat. In the year 2019, when the work of Bhomat Vikas Manch initiated. The villagers including me joined BVM as member and started attending Meetings. We got to understand the four basic objectives of BVM, and then we got to know that there are many governmental welfare schemes but we were Unaware. We were also unaware about the details of FRA, MGNREGA and Social Security Schemes.

Regular meetings provide us a chance to help villagers and seeing my efforts people choose me village level committee president of our group. Being president of the committee, we helped 25 members whose land falls under FRA, these 25 farmers are cultivating land since generations. Our village committee prepared 15 files with the entitled families and online applied for patta and hard copy of the same handed over to panchayat. Before completion of files, we passed through many problems like collection of documents which

were quite tedious job but with the support and help of the members and BVM staff makes it easy. The sarpanch was cooperative but the secretary's approach harassed us but, in the end, we got succeed in filling.

Similarly, we make joint voice under MGNREGA and got works. Earlier the earth works under MGNREG done with JCB. We protest and make decision that if the earth work will be done through Machine how the people will get labor under the MGNREG? We approach Sarpanch and Secretary and make demand of work and also request them to stop JCB works. Seeing our common voice and solidarity they stop JCB and given works under MGNREGA. I with members attended Education tour of BVM during 25-26 February 2021; we went to Mazdoor Kisan Sanghathan, where we learnt how to get full payment under MGNREGA and how we can make strong and conscious group? In my village we have secondary school where members of the committee visit regularly and talked with teachers about children's education. One fellow of our village encroached part of school land and started construction as we noticed I with the committee members went to the site and stopped construction and notified the land in records with panchayat so next time nobody even try to encroach. This Success provided us strength. We also helped in providing 10 old aged members pension and 5 widow pension and we always in touch with panchayat. In my panchayat there was no FRA committee hence we requested panchayat and make pressure on the panchayats which gave us success in constituting FRA committee and myself is chosen as secretary of the committee. During Covid I myself with village committee rendered our services in distributing one month's dry Ration kits to most vulnerable families. Apart from this We are also helping in making their Residential and birth certificates. We believe that BVM will get strong and will able to support and raise voice for whole block.

GMKS is concentrating and working its following activities for better governance:

- a. Formation and Support to Village Institutions
- b. Capacity building of the members and leaders
- c. Youth involvement
- d. Motivate villagers to avail benefits from Social Security Schemes
- e. Avail benefits from FRA/MGNREGA
- f. Strengthening PRIs
- g. Strengthening Local Self Governance

Gender Equity

The Three-year Program Strengthened Civil Society Organizations towards Fostering Women Empowerment in 120 villages of Jhadol and Gogunda blocks.

'Strengthening Civil Society Organizations towards Fostering Women Empowerment in our working area aims at addressing the gaps that hamper the progress of women especially the women and foster their empowerment through the local Civil Society Organizations (CSOs).

The Program supported and strengthened Civil Society Organizations (CSO) to empower over 15,000 marginalized women in 2 blocks of Udaipur district in governance, by March 2022, Additionally, the program aimed to help them achieving their rights and many of them emerge as leader for better governance and to create sustainable livelihoods from MGNREGA and enhanced their power of collectives which strengthened and transform communities.

Overall, the project promoted women's constitutional rights and worked towards enhancing women's voice, leadership and participation in social and economic life. The program also helped gender to access to resources and guarantee equal rights and also strengthened capacities CSOs for enhance women's participation.

Covid-19

We were horribly shocked when COVID-19 again expands in the start of 2021-22, People were in shock. It was grief situation. Labor is again returning to their villages with empty hand and nothing surplus in home and kitchen to eat. The children, Old aged, widow and pregnant women suffer a lot. During pandemic, in very fearful situation the BVM workers and member played an important role. Even seek permission for farmers for harvest their crops. They surveyed each household and make them aware about COVID -19. They

explained to the people calmly that the treatment of this epidemic is only prevention.

We were having active groups in 120 villages because of this Program. The GMKS established local communication system within the area and constitute teams for this particular task in such pandemic situation. GMKS organize too small meeting with the leaders and staff of BVM to make them well informed with COVID -19, Guideline. Established liaison with district, block and local officials, local PRI,s and Police for awareness and relief work in project area. GMKSS workers Obtained pass for vehicle and volunteers from district administration.

GMKS approached APF and they provide us instant relief for the victims as in the past. It was a big relief in such situation. With the support from APPI, GMKS provide a month ration to 1500 families out of 6000 families the most sufferers. The ration includes wheat flour, Oil, Salt, Chilly and Turmeric power, Sugar, Tea leafs, Soap, Mask, Sanitizer etc were provided to the families.

The district Collector was so kind and flag off the trucks loaded with relief material and was very much happy to know that with one months of Ration pack GMKS is also providing vegetable seeds for coming monsoon season to develop kitchen gardens. The material was distribution jointly with the block administration and Panchayats even the list of most effected families were prepared by GMKS jointly with PRI and administration.

GMKS also approached to its old partner CASA and they also provide a month's Rashaan support to most affected 180 families.

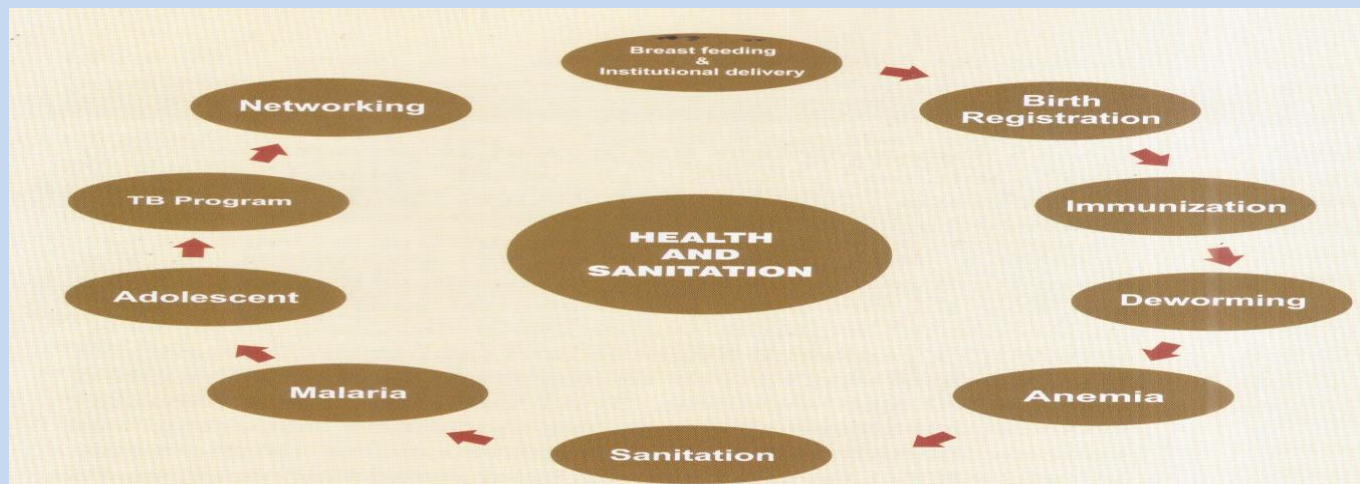

As we have mentioned, our workspace is located in the middle of the Aravali forests, where there is a transportation problem. The villages are fallen from the hills and the settlement is scattered. The financial condition of the people is very weak and the people are poor. Here for health facilities, there is a CHC in Oгна village for health treatment, which provides treatment to the people of thirty forty nearby villages, but there is a lack of facilities in the hospital.

Understanding this situation, GMKS also did the work of mobilizing resources for the hospital and provided the following resources to the hospital so that poor patients could benefit:-

Health Equipment at CHC Oгна

SN	Name of Equipment	No.
1	Pulse Ox meter	10
2	Inf. Thermometer	5
3	BP Monitor	5
4	Digital Thermometer	10
5	Face Shield	100
6	Hand Gloves	1000
7	PPE Kit	100
8	Mask N-95	100
9	Dettol Soap	50
10	Sanitizer	40
11	Disposable Bed Sheets	150

Health

GMKS is a grassroots organization that ensures healthcare and nutrition intervention for women and children in vulnerable communities of working area. The programs encourage preventive health, balanced nutrition and child development practices. To this effect, they have adopted a holistic approach to embrace, educating and empowering mothers and children in their social environment. Where there is necessity, the organization organizes seasonal

camp. After Covid-19 Pandemic GMKS is building health awareness amongst the community and focusing on cleanliness and sanitation.

GMKS efforts under Health Program

SN	Issues	Activities
1	Covid-19	Awareness building, Distribution of Mask, Pulse ox meter, BP Monitor, Hand gloves, PPE Kit, Thermometer, Sanitizers and Distribution of food Material to 4000 families.
2	Immunization	Pregnant Women Immunization, Child Immunization , Counseling, Home Visits
3	Breast feeding & Institutional Delivery	Counseling, TBA Training, Motivated for institutional delivery and breast feeding
4	Anemia	Counseling, Support in Distribution of IFA Tablets, Kitchen Garden
5	Malaria	Awareness, Check-up, Organize treatment Camps.
6	Adolescents	Regular Meetings and Trainings, Awareness building on early marriage
7	TB Program	TB Patient Check-up, Counseling, Meeting with ASHA & ANM
8	Sanitation	Counseling, Toilet building, waste water channeling
9	Net working	Networking with Health Department, PRI
10	Other	Awareness building towards HIV/AIDS, Motivation for family planning, Emergency Support

Natural Resources:

Agriculture and allied activities provide livelihoods for nearly 50%. This is primarily why our Natural Resources Management (NRM) intervention strives to help farmers preserve resources and create livelihood options. Our work

as an NGO in environmental conservation has led us to focus on water, organic farming and climate change too. GMKS since its inception work on environment protection. In last three and half decade or more we start constructing water harvesting structure, soil conservation and promote gravity-based irrigation. We also motivated village groups to protect common land from encroachers.

Plantation Drive: -

Under the social forestry program GMKS with joint collaboration with CASA selected 50 families from two villages and organize plantation drive. Each family planted 10 horticulture plants and 20 medicinal plants around

horticulture plants. In all 1500 plants were planted. The names of the plants are hi-yielding Mango and Lemon with 1500 medicinal plants namely Arjuna, Alovera, Amla, Neem, Behda , Jamun ect.

Village Commons:

Village Commons are important for rural peasants. It provides food, fodder, timber, and recharge of ground water. It played an important role in maintaining ecological balance. Over the years there has been a sharp decline both in the extent as well as the health of common lands. The primary reasons for the reduction in common lands are; lack of clarity on what constitutes CPR, absence of a long-term perspective on land and land use; changes in land-use; the lack of recognition of local institutions; absence of clear tenure and allocation of land for local needs such as grazing and firewood; multiple pressures of a growing populace; increasing impetus to bring more land under cultivation and popular politics of land distribution.

Lacking mass awareness, the conditions of the Commons are very pathetic. Gram Panchayats are not particular to develop such commons. In many cases Pasturelands are encroached and vulnerable. It needs to make public pressure and sensitization of Panchayats.

GMKS is maintaining 14 (1500 acre) pasture land which was developed by GMKS since quite long. It is only possible because of the regular community touch, people's participation and cohesion among the village groups.

Child Protection:

GMKS working area is the border area of Gujrat which produces BT Cotton in large scale hence they and their labor contractors always taken children from our village area since quite long. GMKS took initiative in 1990's and motivated people not to send their children for labor. Our three decades of continuous work, motivation people realized and now the problem come in to control though in few pockets the problem still exist.

GMKS help not only child- and laborers but also school dropouts and children who were never enrolled in schools. The aim of this intervention is to ensure education for all children by bringing them out of the vicious circle of poverty through a spectrum of activities.

Main Streaming of Girl Child

GMKS since its inception working to motivate community that girl education is must for the future. Since long education in tribes and down trodden community is having less importance hence they are not keen to have formal education.

They care their siblings and go to graze animals. Many times they migrated to Gujrat for BT Cotton work to earn for the family. In this process they unknowingly pass their childhood and the age of formal education. Hence GMKS simultaneously works to stop child trafficking and mainstreaming of girl child. GMKS entered many girl children in school after convincing their parents as well as community as well. Girls who receive an education are less likely to marry young and more likely to lead healthy, productive lives. They earn higher incomes, participate in the decisions that most affect them, and build better futures for themselves and their families. Hence on regular intervals GMKS organize reproductive trainings for adolescent's girls and regularly providing training on gender equity to boost their knowledge. GMKS also organized male and female joint training on women development too.

We all know Girls' education strengthens economies and reduces inequality. It contributes to more stable, resilient societies. GMKS is of the opinion that Girls are the future mothers so for the better world and just society it is important to make them educated for the future.

Farmers School

To upgrade skills and knowledge of farmers, Gandhi Manav Kalyan Society has established a full-fledged agriculture research and training center for livelihood in a sprawling 20 acres of land near its headquarter at Oгна. Local farmers are regularly trained in the center for adopting the methods of farming. In the training, farmers are being told about techniques and processes of construction of compost pit to decompose organic manure, Millet cultivation, cash crop's (Ginger, Turmeric) oilseed, Pulses, food grain etc. wormy compost and on cultivation of specific crops. Seasonal trainings are organized twice a year on regular basis.

GMKS regularly organize training and demonstrations on cash crops like mustard, ginger, turmeric and Safed Musli (*chlorophytum borivillianum*), Regular seasonal crops like Corn, Wheat, Barley, Gram, Oil Seed and Millets. Traditional seed preservation system has also been developed by the centre to preserve and protect the seeds from diseases and damage. At Dharamitra under agro horticulture lemon, mango, country apple and amla (*Phyllanthus Emblica* - Indian Gooseberry) crops also been taken. The centre demonstrates about cropping pattern, mixed cropping, and vegetables too. A wide variety of crops are produced in the centre and the method of organic cultivation is also been taken and demonstrated. There are some specific varieties of medicinal plants and trees which can be found in the centre.

Promotion of Millet Cultivation

GMKS is engaged in promoting millets cultivation in this area because in past millets were cultivated by the farmers on regular basis. Wheat and Maize acquired the place of millets. Seeing uncertainty of monsoon rain and the land millets are most suitable for the area and poor farmers. Apart from the centre trainings were organized in 4 interior areas too for promotion of millets in whichFarmers participated.

Training Center

GMKS is having training facilities at Dharamitra Centre and provided skill development trainings. It also provides space and lodging boarding facilities.

During the year.....trainings were provided by the center in which 103 participants participated. Main Streaming of Kathodi Community

Kathodi

Kathodi is basically Maharashtra origins tribal who were brought in this region by the Bohra community who were engaged in Catechu (Kattha) business. Catechuic is a juice of Acacia Catechu (kher tree). People use it in betel with lime

and in mouth refreshment. It's a big domestic business and to collect it needs expert manpower. Kathodi lives in jungles and they have proficiency in extracting Catechu from Acacia Catechu. Kathodi community is so poor .They were residing in huts in forests area since 200 years. After independence they

collect honey, minor forest produce, Chlorophytum borivilianum (safedmusli) and do fishing to earn livelihood. Their culture and tongue is still Marathi. They are basically non vegetarian and like to eat monkey flesh

on festivals. Most of them are alcoholic and consume country liquor. Kathodies are carnivorous. In daily cuisine, eaters of corn, jowar, millets, Wheat etc. They like onions and rice is dear to them. Women wear saris in Marathi style, which is called Fadka. There is no custom of wearing ornaments in them. It has the importance of tattooing on their body.Kathodilove nature. They fully believe in rebirth. Kathodi is the chief conventional deity of Goddess Dungal Dev, instrumental god, Gama Dev, Heavy mother, Kansari Devi etc. Kathodi believes in goddess devotion more

than the deities. Their family is self-centered. A person gets separated from his original family as soon as he gets married. Relationship like marriage, divorce and widow marriage is prevalent.

About 50 percent of the Kathodi population of the state is inhabited in Kotda and Jhadol blocks of Udaipur district.

GMKS approached with this community in 1986 and design plan for their resettlement with tribal development department. Compared to all the other tribes of the state, the educational and economic level of this tribe is extremely low. After getting sanctioned from the Tribal Development Department 7 new villages were settled and 650 houses were constructed by GMKS in-between 1990 - 1998 and some more houses were constructed by the Tribal department themselves. GMKS also constructed two Hostels for Kathodi children to promote them towards education.

GMKS played vital role in mainstreaming of this community and through other for their benefits. GMKS was also involved in providing livelihood through agriculture and tried up to high court and getting success in allotting land to every house hold for agriculture purpose.

Building Civic Responsibility

To built social and cohesive environment within the sector GMKS organized dialogues on many issues to promote culture of dialogue in town. In recent past we organize following dialogues in our campus at Udaipur in which educationist, Social scientists, students, Poets, writers, Scolders and NGO workers participated.

Apart from dialogue being citizen and to promote citizenship a senior fellow from the organization regularly participate in voluntary lake cleaning on every Sunday for two hours in morning and then had discussion with the community around the lake to protect lakes of Udaipur. Udaipur is city of lakes.

It gives us a deep sense of satisfaction to brief about Rana Punja College for the academic session 2020-2021. RPC reflects the expression of our sincere efforts at sustaining and enhancing quality irrespective of nationwide Covid-19 pandemic Situation. The report provides a broad picture of the overall programs and activities of the college towards fulfilling our goals in tune with our Vision and Mission. Most of the Students of this area are tribal and other backward classes. During much extended lockdown period the role of colleges and educational bodies the most important and vital in keeping the education structure alive. Although this global pandemic has created social and physical limitations, the college has taken a big leap within a matter of weeks to cross the barrier and facilitate learning. Online has made a sincere effort to integrate technology for Teaching and Learning.

Mission and Vision

1. Provide the highest quality education.
2. Emphasis on Vocational Technical and Responsible Citizenly education.
3. Promote college as a Lifelong Learning Centre for students and community
4. Prepare students for 21st century.

Academic session of the college begins on July 2020. However, the classes of the college were engaged online due to COVID pandemic. Admission procedure of the college as per university rules began after the declaration of results. The process of admission was undertaken by the admission committee formed by the college. Total 163 students enrolled in college.

The college apart from formal education organized various programs for the students. It also helps to facilitate scholarship to the needy and academically eligible students. In fact, RPC works to achieve overall development of the students. Apart from quality education RPC organized following activities in college for overall development of the students:

a. Lectures

b. Class Tournament

b. Teacher's Day / Constitutional Day

c.

d. Cultural Programs

e. Rana Punja Jayanti

Covid-19 Relief

During the Pandemic Covid-19 the staff and the students of the college surveyed the most vulnerable families and provide them one month's dry Roshan (Food Material) with the help of Gandhi Manav Kalyan Society.

Three College girls achieved State level Balika Gaurav Prize.

The chief Minister of Rajasthan presented memento to Rana Punja College girls for stopping child marriage and awakening the rural mass for Balika Shiksha at Jaipur in state level function on Balika Diwas function. The Chief Minister also honored The CEO of Gandhi Manav Kalyan Society for good rural reconstruction work. The Chief Secretary, Director Women development Govt. Were present with officials in the function.

It is a great saying that "Education is the passport to the future, for tomorrow belongs to those who prepare for it today!". It is an enduring tradition to take time to pause, turn around to look at the fruitful year gone by, achieving both the expected and the unexpected, while setting various milestones and then synergizing ourselves to move ahead to face the challenges in the coming year, with a positive attitude. We thank the Almighty God for all the blessings bestowed upon us year after year, especially during the academic year 2020-21.

The Naturewood's School has been stepping from success to success all through the years since its humble beginning in 2020 and the past year has been no exception. We have done excellently in academics and non-academic areas.

Academic Excellence:

"Excellence is an art won by training and habituation". The system of education in The Nature wood's, as you all aware, is a blend of theory and practice in the right proportion to arrive at a comprehensive curriculum.

"It's the teacher that makes the change, not the mere classroom". Regular staff meetings are conducted to evaluate our quality of performance and plan for the future with more innovative methods of teaching and learning programs.

Co-curricular Activities and Celebrations:

The Naturewood's School not only focuses upon the intellectual development of our future generation, but also takes care of their emotional and behavioral development in their early ages of development by inculcating sound moral values, responsibility and social awareness. We are doing it through different co-curricular activities and school celebrations.

Keeping in view the all-round development of the student's extra-curricular activities are also given due importance. Dance, music, drawing is given place

in the academic planning. Students choose their activities and get evolve in various levels.

We have a strong support of our parents which we cherish every year. The PTA general body meeting is an occasion to acknowledge their service to the school. We had many virtual meetings with the parents to discuss about teaching learning process. Also days are set apart for parent teacher interaction in which parents are called class wise to meet the teachers.

In every Morning School Assemblies provide ample opportunities for all our students to come forth with self-courage and express their abilities of public speaking, reading, thought sharing etc.

The Way Forward

On the continuous pressure from the community the management is trying for upgrading the School up to class 10th. Apart from upgrading Management is planning to purchase school bus and equipments. The main thrust of the management is to provide quality education to the children in this backward rural area.
